DETAILED ACTION

This Office action is in response to the amendment filed June 13, 2007 in which claims 1 and 9 were amended.

The rejection of the claims under 35 U.S.C. , second paragraph is withdrawn in view of the amendment to the claims.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has amended the claims to recite the biodiesel "having a Cetane number in the range of 45-67 and total nitrogen content in the range of 0.03-0.033%." The fails to find support in the original filed disclosure and Applicant has not pointed to where in the specification support for this limitation may be found.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
